**Edited by REVA's Medical Director, Critical Care Emergency Medicine Textbook Hits the Shelves**

Fort Lauderdale, Fla. – REVA's medical director, Dr. David A. Farcy, MD, FAAEM, FACEP, FCCM, President-elect of the American Academy of Emergency Medicine (AAEM), is the senior editor of the leading textbook by McGraw Hill on emergency critical care, *Critical Care Emergency Medicine*, first published in 2011, the 2nd edition has just been released.

Considered to be the first comprehensive text on critical care emergency medicine, "...goes a long way toward establishing emergency physicians as credible intensivists...The book is unique as it blends the perspective of a true intensivist with that of emergency medicine. The book is the first of its kind, and I predict it will become known as the standard reference for those emergency physicians, as well as others, who wish to understand the overlap between emergency medicine and critical care."--Thomas M. Scalea, MD, FACS, FCCM, R. Adams Cowley Shock Trauma Center and University of Maryland School of Medicine (excerpt from the foreword).
